

REMARKS

The above amendments to claims 31 and 32 only correct a minor error. To provide clarity, an obvious correction is made to an obvious error in each claim. Specifically, the term "composition" is added next to the term "phytolipid" to ensure consistent use of the terminology throughout the claims. Ample basis for this amendment can be found throughout the application as filed, e.g. claims 1, 7, and 28. In view of the typographical nature of the error, no new search or substantial amount of additional work on the part of the Patent and Trademark Office is required. It is respectfully requested that this amendment be entered.
